_____has completed all but one requirement to be promoted to _____Belt in (Judo Karate.) The final requirement is the verification that He/She has been a good citizen and student. It is extremely important to us that our students not only learn the martial arts, but that they use the knowledge they have been given to make our community a better place to live. One way that they do this is by being responsible citizens. The verification of this requirement is based upon your recommendation as teacher or parent.
